## WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

## THE FOCUS FOR JUNE

As June begins, we embark on a path that will lead us to greater enlightenment, greater love, and greater fulfillment in our lives. There's only one challenge: we can't always see that path clearly, and we must be willing to step forward in partial darkness, trusting that divine providence will somehow steer us in the right direction. If we have the courage to take those first few faltering steps, we may even dare to express a bit of spiritual ambition, knowing that the deeper we go into our own infinite potential the more generously we can share the blessings we embody with everyone we encounter.

There are times when the path to love and ease seems blocked, when the harsh realities of our day-to-day responsibilities bring extra drama to our lives. When that happens it is easy for our egos to get out of hand, insisting on selfishness and petty, demanding attitudes. But fortunately it is always at these times of greatest stress that the greatest gifts of grace are made manifest in our lives. If we simply open ourselves to expansive thinking and greater possibilities, we will not only reawaken the love within our hearts, but we will also be able to serve others with greater clarity and efficiency.

The powerful June 11 Full Moon calls on us to become more conscious in sharing our love, wisdom, and compassion with all of humanity. When we imagine greater abundance in our lives, greater tenderness in our relationships, and greater vision in our society, we take the first step in bringing the richness of those blessings into manifest form. Along the way, we can spontaneously risk expressing our ideas more boldly and clearly, confronting all obstacles and illusions with grace and peace in our hearts.

We may feel that our ability to take action is being blocked when Mars meets Saturn on June 18, but we will make much bigger gains mentally, spiritually, and physically if we accept each seeming impasse as inspiration for more creative intensity. This is a time for spiritual boldness, for setting a new standard, for stepping up to a higher, more enlivened understanding of who we truly are and who we are meant to become. Once we realize that all true growth comes from a balance of discipline and expansion, we can open ourselves up to delicious new expressions of love and harmony.

How long will we ourselves remain the greatest obstacle to our own spiritual evolution? How many times must we forgive ourselves for being our own worst enemies? At the end of June we are driven toward self-

justification as we cling to old paradigms that allow us to remain stuck in a web of unclear motivations, unprofitable transactions, and unloving communications. Our task is to break loose of the absurd limitations of petty self-defense and small-mindedness so we can open ourselves to a renewal of our spiritual essence and a more courageous expression of our divine nature. We may not fully understand all that that implies as yet, but if we are willing to act with even a small amount of courage, our true purposes and opportunities will become clear to us in the weeks ahead.

## Spiritual Living in the Material World

We face many challenges when we try to bring our spiritual awareness into the realm of mundane reality, but there are few challenges greater than the ones that revolve around money.

Financial concerns have enormous power which can be used wisely to transform our lives and to open up new avenues of loving and creative service. Money creates emotional stress, plus wonderful opportunities for growth, spiritual evolution, & personal contribution.
