## WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

## THE FOCUS FOR MARCH

We come into March knowing that we must summon our will and focus our intentions if we are going to manifest fresh possibilities in the months ahead. We begin the month with Mercury finishing its retrograde cycle, reminding us that this is still very much a time for reflection, for reviewing our past and for renewing our spiritual commitments.

The Lunar Eclipse on March 3 introduces a week in which we can best discover the seeds of true success if we return to our roots in Pure Consciousness. If we turn within ourselves and refresh our awareness of who we really are, we will suddenly be able to envision strategies in which we can more soundly contribute to the greater good, creating the biggest possible positive impact with the least possible effort.

But even though minimal effort is required, we cannot afford to let our attention wander. By the time we reach the middle of the month we may realize that sacrifices are necessary, not only for our own survival, but also for the well-being of generations to come. Sacrificing does not necessarily mean suffering, however. Now is an ideal time for us to apply our mental focus and our emotional balance toward more dynamic activities that use time and resources wisely and that create bigger possibilities through clearer, more specific priorities.

The March Solar Eclipse is profoundly powerful, and it carries a profound message. No matter how many different ways we look at the world's variety, no matter how many apparent conflicts or discrepancies arise in our experience, we must ultimately return to the core truth of our existence: we are, in our absolute essence, of one substance with the Divine Energy. The more we are willing to risk acknowledging this reality, and the more we are willing to express it through the creative intelligence of our thought-forms and activities in the world, then the more we will experience true happiness, fulfillment, and rewarding contribution to the lives of others.

As the month draws to a close, it is time for us to express profound gratitude for everything in our lives that has nurtured and sustained us in the past. Through the safety, ease, and comfort provided by our families, mentors, spiritual teachers, and unseen friends, we have grown to self-sufficiency on the spiritual path. Now, in the guise of our mundane existence, we have unbounded opportunities to discover sacredness in the realm of ordinary experience, and to bring the gifts of love and grace to
