WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR FEBRUARY

There are certainly times when competition becomes the keynote of our social connections, and all too often we may view the competitive force itself as something that diminishes us or denies our full potential as spiritual beings. But the Divine Essence works in many miraculous ways, and our ultimate goal in friendly rivalry is to push our mutual evolution into ever greater expression. Then, when the excitement of our games is over, we can rejoice in the refined comradeship that only shared accomplishment brings, relaxing in the bliss that blossoms forth from ever-higher aspirations.

When we really understand the perpetual workings of Natural Law at an intimate level, we spontaneously gain the kind of insights that open up infinite possibilities for us and for everything we touch. Whether we are applying our awareness of the Law of Vibration to market fluctuations and interpersonal relationships, or whether we are simply delighting in the pure creative potential that is ever more manifest in our lives, we can in all humility rest assured that our own innate intelligence is the primary tool through which Divine Wisdom expresses itself every day.

Sometimes the choices and decisions that confront us can seem perplexing. Do we want things to be measurably better, or do we simply want to have more good things happen? Are we seeking greater levels of refinement, or are we pursuing the greatest benefit for the greatest number of lives that we can influence? Ultimately, though, such would-be dilemmas evaporate before the gaze of Transcendent Reality. When we fully grasp our own divine empowerment, the choice is an obvious one: we deserve it all! In asserting ourselves as embodiments of the Divine Will, we must rise beyond petty concerns and claim all the superlatives that are our birthright.

With the power that we have as individuals and as social beings, we have everything we need to open up to our true identity as channels for the Divine Essence in the world. But to allow that to happen in our lives, we must at times aggressively embody the will to take decisive action, shattering our own assumed limitations as we transcend propriety and create our own fresh definitions of who we truly are. It is only then, surprisingly enough, that we can open up to the most graceful and delicate expressions of Divinity within our lives.
