WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR JUNE

At last it's time to leave the past behind, to let our history speak for itself and then be still instead of being fated to participate in its perpetual repetition. If we have suffered and sacrificed, if we have debased ourselves and sought new depths of humility, so what? This is the occasion for a bigger reach and a broader focus, and we are here to share the unbounded reality of persistent grace with all the world.

So let's get real. If we pay attention to the true Source of our existence and our abundance, we cannot help but be aware of the vast expanse of undiscovered territory that lies before us. It's time for us to rise to the occasion, committing ourselves solemnly and enthusiastically to the sacred task of revealing, embracing, and sharing our highest capacities for blessing this planet and all its inhabitants.

Is it possible for us to dream of our true birthright? Can we somehow imagine what and who we shall become when we finally allow ourselves complete expression of our innate spiritual integrity? If we expand our vision and extend our expectations, then we are doing more than day-dreaming or thinking wishfully—we are actually creating the energetic framework for our own evolution.

It's time for us to take decisive action, but that action doesn't have to be blind or purposeless. As we embolden the divine spirit within ourselves, we can reclaim a sacred state of innocence, a childlike willingness to believe in miracles and magic. That delightful kind of expectancy not only brings more grace and energy into our own lives; it also spontaneously blessed the lives of others as well.

When we let ourselves be playful, we usually feel that we are being a little foolish and perhaps a bit vulnerable as well. Actually, though, a playful spirit is a way of expressing absolute trust in divine benevolence. Our willingness to allow a little foolishness into our lives magically unites us with all the other realms of creation, and in that unselfconscious union there is enormous power for change and productivity.
