WHAT IS IT?

Practical Spiritual Astrology is grounded in the understanding that our aim as consciously evolving humans is not only to remember and reclaim our essential divine nature, but also to manifest that spiritual essence more dynamically and more abundantly in the material world. The sacred knowledge of the heavenly intelligences and their cosmic cycles can guide us infallibly into spontaneous right action and joyful, fulfilled expression of our true selves.

Practical Spiritual Astrology thus brings us daily opportunities for being completely spiritually centered in a consistently resourceful manner that brings out the best qualities in our circumstances, that is completely congruent with our true creative nature, and that is genuinely helpful to others in a multitude of pragmatic, life-affirming ways.

“What we are looking for is what is looking.”

- St. Francis of Assisi

THE FOCUS FOR SEPTEMBER

When our thoughts become actions, we can unlock the power to transform the world. We may think that we are returning to the center of our spiritual awareness, moving away from mundane distractions. Our actions may seem calm and well-directed. But the mere possibility of creative change can be enough to spur unbridled enthusiasm, and that excitement itself can be a cause for celebration.

There are lots of surprises on the spiritual path, and sometimes the biggest surprise of all is that we can be so optimistic in the midst of the calamities that surround us. We can get a glimpse of a bold and beautiful new way of doing things, and as that happens we may suddenly become attuned to the amazing potentials being carried along on the winds of change.

How shall we fulfill our role as spiritual messengers in a time of major crisis? We do not need to worry about what to say or what to do; we can rely on the powerful and benevolent guidance of Universal Grace to take care of the details. Our task right now is simply to veil our egos long enough to become spiritual megaphones, pouring out the strains of transformational consciousness without being concerned about who will hear us or how much they will understand.

Connecting and communicating can sometimes require enormous strength of will in order to be forceful enough to break through the barriers of ego-enforced separation and estrangement. But if we awaken the engine of our deepest internal resources, we can not only make our voices heard; we can actually create a kind of dynamic tranquility as we define the structures and outlines of loving interaction.
